

K-LOVE serves me and my community by providing family-friendly radio. K-Love has helped people locally and across the US by being a positive influence and providing encouragement. Please allow the hundreds of thousands of people who listen to K-LOVE on FM translators to continue to do so. If people are unable to listen to K-Love due to Low Power FM expansion, they won't be able to get their positive encouragement and pass it on to others. This will result in a more negative, selfish and depressing environment -- because what you take in is what you give out. (Most of the other radio stations I've listened to are far from uplifting -- especially what the teenagers gravitate to.) K-LOVE is an awesome alternative that all ages can enjoy. I challenge you to find your local K-LOVE station and listen exclusively to it for one week. See if you don't have a better attitude about life!
